Crazy, Sublime Green, Phoenician Yellow, 50s Aqua, Tropical Turquoise, Hemi Orange, Hugger Orange, Grabber Blue, Go Mango, Flame Red and Daytona Yellow. The 11oz. spray is easy to apply and peel off and helps provide a bright finish with no base coat or metal flakes needed.

Rust-Oleum has extended its popular Peel Coat line of spray paints to include removable coatings that offer endless customization. The new products include Peel Coat Peelable Primer, which is gasoline-resistant, simple to remove, safe to wash and easy to apply on original equipment manufacturer (OEM) painted surfaces of metal, plastic and glass. Peel Coat Rugged Coat is a textured, removable coating that creates a rugged, exterior look and protection from scratches and road debris. It adheres to any shape and contour and protects against rust, grime, scratches and road debris. Rugged Coat is available in Black, Desert Sand, Red and Blue. Peel Coat Blasted Metals simulates a blasted metal look with a textured premium metallic finish. No top coat is needed and it resists marring from scratches and road debris. It's available in Black Tungsten, Copper, Gold, and Steel. Peel Coat Gloss is available in the trending shades of Arctic Blue, Neon Green, Purple and Red. It offers a gloss finish in just one step with no top-coat needed.

Industrial products come of age

Consumers are more informed than ever on the value vs. performance of products

and seek out industrial brands that deliver convenience and efficacy. One such product is 3M Hi-Strength 90 Spray Adhesive, a versatile, fast-drying spray adhesive that bonds strongly to a wide range of materials. The spray formula is easy to dispense, offering a variable-width spray pattern, and applies directly onto surfaces and materials where needed. The spray adhesive offers a high initial grab, sufficient bonding range and fast dry time. The combination of maximum-strength bond and clean appearance make it suitable for general maintenance and repair projects; attaching fiberglass insulation and drywall corner beads; bonding thin films, foils and fabrics; picture framing and mounting displays and installing acoustic panels.

Stonetech Advanced Grout Sealer is a quick and easy-to-use grout sealer that helps keep cement-based grout looking new. The 13.5 oz. aerosol can offers a continuous flow spray that allows for wall-to-floor application with maximum protection against

most stains. For both interior and exterior use, it can be applied as early as two hours after grouting.

Price-Driscoll Corp. launched a new mold release product called Premium Pure Carnauba Wax, an all-natural carnauba wax suitable for the electronics, semiconductor and LED industries as well as for thermoset encapsulation molding and injection molding.

The new product possesses features such as paintability for versatility and enhanced spray pattern for complete coverage. It is U.S. Food & Drug Administration (FDA) sanctioned for food and medical packaging applications and has a clog-free formulation for ease-of-use with no product waste, according to the company.

Work it like a pro...

The B'laster Corp. announced that its newly redesigned packaging has begun shipping to retailers nationwide. The new look includes completely rebranded guidelines, including logo, new package designs and all collateral material, as well as a partnership with the Teflon brand.

Five current B'laster products have been reformulated to contain Teflon fluoropolymer: Pro-Grade Multi-Purpose Lubricant, Premium Garage Door Lubricant; Industrial Strength Silicone Lubricant; Long-Lasting Chain & Cable Lubricant and Advanced Dry Lubricant with Teflon.

"Work it Like a Pro" now serves as both B'laster's purpose and its tagline, becoming central to its redesigned brand.

"We've been manufacturing professional-grade products
